ANSI/ISEA Z308.1-2009

Figure 1. ANSI/ISEA Z308.1-2009 Label

ANSI/ISEA Z308.1-2009 Type I, II, III or IV
Caution! This kit meets the ANSI/ISEA Z308.1-2009 only when the required minimum fill is maintained.

Required Minimum Fill	Recommended Supplies
1 First Aid Guide	Analgesic (Oral)
1 Absorbent Compress 4 x 8 in. min.	Bandage Compress 2 x 36 in. min.
16 Adhesive Bandage 1 x 3 In.	Breathing Barrier, single use
1 Adhesive Tape 2.5 yd.	Burn Dressing 12 sq. in. min.
10 Antiseptic Treatment Applications 0.5 gm. each	Cold Pack 4 x 5 in. min.
6 Burn Treatment Applications 0.9 gm. each	Eye Covering 1/4 in. thick min.
4 Sterile pad 3 x 3 in.	Eye/Face Wash, Sterile 4 fl oz. min.
2 Pair Medical Exam Gloves	Roller Bandage 2 in. x 4 yd
1 Triangular Bandage 40 x 40 x 56 in.	Hand Sanitizer 1/32 oz
6 Antibiotic Treatment Application 0.5 gm. each	

The described kit may be suitable for some businesses. However, the adequacy of the contents for hazards of each work environment should always be evaluated by competent personnel. For a variety of operations, employers may find that additional first aid supplies and kits are needed.

ANSI/ISEA Z308.1-2015

Figure 1A. ANSI/ISEA Z308.1-2015, Class A Kit Label

ANSI/ISEA Z308.1-2015, Class A, Type I, II, III or IV First Aid Kit
This kit meets the ANSI/ISEA Z308.1-2015 standard as sold, it contains first aid products which meet performance specifications detailed in the standard at the below required minimum fill. It will continue to be compliant only when maintained with products that meet the standard at specified quantities

Required Minimum Fill			
16	Adhesive Bandage 1 x 3 In.	1	Eye/Skin Wash 1 fl oz total
1	Adhesive Tape 2.5 yd (total)	1	First Aid Guide
10	Antibiotic Application 1/57 oz	6	Hand Sanitizer 1/32 oz
10	Antiseptic 1/57 oz	2 pr	Medical Exam Gloves
1	Breathing Barrier	1	Roller Bandage 2 in. x 4 yd
1	Burn Dressing (gel soaked) 4 x 4 in.	1	Scissors
10	Burn Treatment 1/32 oz	2	Sterile pad 3 x 3 in.
1	Cold Pack 4 x 5 in.	2	Trauma pad 5 x 9 in.
2	Eye Covering w/means of attachment 2.9 sq. in.	1	Triangular Bandage 40 x 40 x 56 in.

The described kit may be suitable for some businesses. However, the adequacy of the contents for hazards of each work environment should always be evaluated by competent personnel. Kits should be inspected frequently to ensure the completeness and usability of all first aid supplies. Any supply beyond its marked expiration date should be discarded and replaced. For a variety of operations, employers may find that additional first aid supplies and kits are needed.

Class A Introduction

- ✓ Class A designed for Common Workplace Injuries
- ✓ Class A meets Minimum Fill Requirements for Common Industrial Work Zones
- ✓ Common Injuries:
  - Major Wounds
  - Minor Wounds
  - Minor Burns
  - Eye Injuries
- ✓ See Page 17 for Part Numbers

Additional Information

Notes:

Notes:

Features and Benefits

- ✓ Class A are designed for **Common Injuries** in a General Work Zone
- ✓ See Page 5 for Brand New Items Added to Meet ANSI Requirements
- ✓ Color Coded & Unitized for **Ease** of Refill See Page 13 B.3
- ✓ Class A Cabinets Include **Bloodborne Pathogen Kit** CFR 1910.1030(d)(3) (56 FR 64175)
- ✓ ANSI suggests supplemental supplies See Page 13 for more info
- ✓ See Page 17 for Part Numbers

MADE IN AMERICA
WITH CERTIFIED PRIDE

Class B Introduction

- ✓ Class B designed for **High Risk** and **Complex** Work Zones
- ✓ The Most Comprehensive Fill ***EVER***
- ✓ Class B Suggested for any Work Zone where **PPE** is Required
- ✓ Examples of High Risk Workplaces:
  - Construction
  - Utilities
  - Industrial
  - Manufacturing
- ✓ See Page 17 for Part Numbers

Figure 1B. ANSI/ISEA Z308.1-2015, Class B Kit Label

ANSI/ISEA Z308.1-2015, Class B, Type I, II, III or IV First Aid Kit

This kit meets the ANSI/ISEA Z308.1-2015 standard as sold, it contains first aid products which meet performance specifications detailed in the standard at the below required minimum fill. It will continue to be compliant only when maintained with products that meet the standard at specified quantities

Required Minimum Fill

50	Adhesive Bandage 1 x 3 In.
2	Adhesive Tape 2.5 yd (total)
25	Antibiotic Application 1/57 oz
50	Antiseptic 1/57 oz
1	Breathing Barrier
2	Burn Dressing (gel soaked) 4 x 4 in.
25	Burn Treatment 1/32 oz
2	Cold Pack 4 x 5 in.
2	Eye Covering w/means of attachment 2.9 sq. in.
1	Eye/Skin Wash 4 fl. oz. total
1	First Aid Guide
10	Hand Sanitizer 1/32 oz
4 pr	Medical Exam Gloves
2	Roller Bandage 2 in. x 4 yd
1	Roller Bandage 2 in. x 4 yd
1	Scissors
1	Splint
4	Sterile pad 3 x 3 in.
1	Tourniquet
4	Trauma pad 5 x 9 in.
2	Triangular Bandage 40 x 40 x 56 in.

The described kit may be suitable for some businesses. However, the adequacy of the contents for hazards of each work environment should always be evaluated by competent personnel. Kits should be inspected frequently to ensure the completeness and usability of all first aid supplies. Any supply beyond its marked expiration date should be discarded and replaced. For a variety of operations, employers may find that additional first aid supplies and kits are needed.

Appendix B Guidelines

ANSI/ISEA Z308.1-2015

Appendix B (informative)
Guidance on Ongoing Maintenance, Other First Aid Supplies and Unitized Kits

B.1 Ongoing Maintenance of First Aid Kits

First aid kits should be frequently inspected to ensure the completeness and usable condition of supplies in order to maintain compliance with this standard. Any supply beyond its marked expiration date should be replaced.

B.2 Supplemental First Aid Supplies for Consideration - Applicable Environments

It is recognized that each work environment is unique and it is expected that a first aid kit containing the minimum required first aid supplies will be augmented with additional items or additional qualities of required supplies based upon the specified hazards existing in a workplace environment. The selection of such items should be based on the recommendation and consultation of a person competent in first aid and cognizant of the hazards and on the number of people found in the workplace. Federal, state and local requirements should be consulted, where appropriate. Augment kits with the following first aid supplies, as applicable:

FIRST AID SUPPLY	PURPOSE
Low dose aspirin	Used to treat suspected heart attack
Hemostatic agent	For individuals with compromised clotting or uncontrollable bleeding
Electrolyte replacement	Heat-stress related injuries
Glucose replacement	Diabetic or hypoglycemic episodes
Analgesics (oral and/or topical)/anti-inflammatory	Pain management; swelling control
Hydrocortisone	Itchiness and skin-related reactions including rashes
Antihistamine	Allergic reactions
Foil blanket	Treat shock and/or cold stress related injuries

B.3 Unitized Kits

Unitized first aid kits contain first aid supplies arranged in uniform-sized, color coded boxes, in an effort to simplify the organization and restocking of the kit. Color coding of such items is noted below:

- Blue - Antiseptics
- Yellow - Bandages
- Red - Burn Treatments
- Orange - Personal Protective Equipment (PPE)
- Green - Miscellaneous

Elovate Slim Packs Cherry

Relevance in the workplace:

- ✓ 1 in 12 Americans are diabetics
- ✓ 1 in 4 seniors are diabetics (55 and over)
- ✓ Low blood sugar happens anytime, anyplace, 1 billion per year in USA – and that's just what PWDs claim they're aware of…it likely much higher.
- ✓ This is a liability in the workplace and has an impact on productivity. Lows can be fatal.

Product highlights

- ✓ Speed: There's not a faster and more convenient way to get glucose into the bloodstream than Elovate 15 quick-dissolve powder right into the mouth – unless you're getting a dextrose push intravenously.
- ✓ I5/15: It follows the guidelines supported by the American Diabetes Association to use 15 grams of glucose. So highlight 15 grams.

6.6 Breathing Barrier

The breathing barrier shall be a single use disposable medical device listed with the U.S. Food and Drug Administration (FDA) and have a Current valid 510 (k) with the purpose of delivering ventilations by a responder to a non-breathing victim (e.g., rescue breaths and CPR ventilations). The device shall provide protection from direct contact with bodily fluids by means of its construction as approved by the FDA. Each barrier shall be packaged in an easily opened container, clearly labeled with the name of the device, together with comprehensive instructions and/or illustrations for use.

Medical Breakthrough Facts:

- Powder + Pressure = Instant Scab
- The topical powder stops bleeding in seconds by forming an instant scab when applied to the wound
- WoundSeal is unique in that it works independently of the body's blood clotting cascade to create the scab
- The powder has passed numerous clinical studies, including one from the U.S. Department of Defense
- WoundSeal Powder is composed of a hydrophilic, or water-loving, polymer and potassium ferrate
- When the powder is poured onto a bleeding wound, the hydrophilic polymer instantly dehydrates the blood by absorbing only the plasma or liquid portion of the blood stacking the blood solids beneath the powder. Simultaneously, the potassium ferrate dissolves, releasing iron that agglomerates (binds together) the blood solids to create an occlusive seal
- As manual pressure is applied to the powder, the seal is pushed into contact with the wound. The natural glue-like nature of drying blood adheres the seal to the wound and surrounding skin. The occlusive seal, that has formed in seconds, stops further bleeding or oozing. Blood solids continue to stack beneath the seal, strengthening it. The natural clotting process proceeds below the seal

SAM® SPLINT

- The SAM® Splint is universal. It can be used to splint any part of the body
- Lightweight (4 oz. for 4.25"x 36" splint)
- Waterproof
- Easy to use
- Radiolucent. You can x-ray through it
- Foam padded for comfort
- Easily rolled or folded for storage
- Reusable. Easily cleaned and disinfected with normal cleaning solutions
- Not affected by ambient temperature extremes or altitude. It even works underwater
- Cuts easily with regular scissors
- Fastens in place with tape or wrap. No extra equipment is required
- Will not puncture

SAM Splint User Guide Book is available upon request

Certified Safety Mfg.

For more than 55 years, Certified Safety Mfg. has been bringing First Aid and Safety Products to the workplace. Our commitment is to provide quality products and prompt service as well as friendly and knowledgeable customer service. We will continue to be innovative with new products and listen to your ideas.

Certified Safety is world wide with distributors in many countries as well as in every major city in America.

The variety of quality items we produce has made us the #1 growing manufacturer in our industry. All of our products, where applicable, meet and/or exceed the guidelines set forth by OSHA and ANSI/ISEA standards as outlined in Section Z308.1.2015 and Federal Specification GG-K391(a). Since Certified Safety is a manufacturer and not a "kit re-packager," we are regulated by the FDA to meet and follow the rules set forth by cGMP (current Good Manufacturing Practices).

Beyond meeting and exceeding standards, we continually research new ways to innovate and manufacture better quality products. Our patented CPRotector (US Patent #5,562,093), the "Mouth-to-Mouth Barrier," is second to none. We can customize for you and/or your customers and provide every variety of First Aid kit you can imagine.

We take pride in providing American made products and being a "one-stop shop."
