

SCF Splice Trays 48 heat-shrink single-fiber splices or six mass fusion splices

CORNING

Part Number: SCF-ST-077

Corning splice trays offer an easy way to store fiber optic cables and splices while protecting them from damage during fusion and mechanical splicing. The trays are engineered to use with both loose tube and tight-buffered optical cables. Their generous size and craft-friendly design help prevent induced attenuation due to fiber bending.

Features and Benefits

Craft-friendly design

available for "end" or "through" splicing application

Available for many splicing methods

No stress placed on completed splices within tray

-F on closure part number requires 0.4 in tray (Fat)

0.4 in trays allow single-fiber or mass splices

SCF Splice Trays 48 heat-shrink single-fiber splices or six mass fusion splices
