Look For QR Codes/Video Tags

Something you'll see throughout our catalog are QR Codes & video Tags. These "symbols" can be scanned with smartphone software to view a product online, or to view a video that illustrates the use and characteristics of a product. We hope you will find them useful in locating and reviewing our products. To view Tags, you will need to download and install the free mobile app located at http://gettag.mobi with your smartphone.

If it doesn't say **Budco**, *it's not a* **Taplock®!**

Secure your plant with the most long-lasting durable Taplock® on the planet.

Scan this QR Code with your smartphone to view Taplocks online.

43-734-1C Markable Taplock®

A Budco Exclusive!

Durable, UV-stabilized polypropylene body. Available from stock in yellow, orange, purple, gold, white, black, dk. green, lime green, dk. blue, rose, beige and red.

Specify color when ordering. Stainless steel uni-hasp that fits RG 59, 6, 7 & 11. Alphanumeric serial number unique to each Taplock®. White, heat-stamped writing panel. White and yellow tags have black print, other tag colors have white print.

Product No. 43-734XX-1C

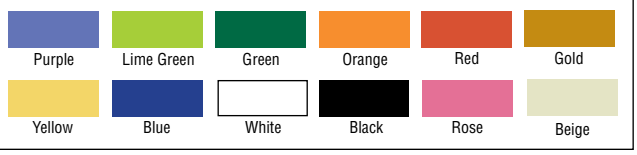

1 BOX	**$125.00**
10 BOXES	**$120.00**
25 BOXES	**$115.00**

XX in the product number is equal to the color of the taplock you want to order. Use the following color abbreviations when placing your order.

Purple = PU, Lime Green = LG, Green = GR, Orange = OR, Red = RE, Gold = GO, Yellow = YE, Blue = BL, White = WH, Black = BK, Rose = RO, Beige = BE

Packaged 100/bag, 1,000/box. Priced per box.
Minimum order: 1 box

Taplock color options:

42-403-1C Color-only Taplock®

The same high quality polypropylene body and stainless steel uni-hasp without the writing panel or serial number. Use the black or white paint pens to permanently mark these tags.

Recommendations:
Use black 45-505 or 45-505FT pens with light colored tags and the white 45-506 or 45-506FT pens with dark colored tags. Pens can be found on page 10.

Product No. 42-403XX-1C

1 BOX	**$115.00**
10 BOXES	**$110.00**
25 BOXES	**$105.00**

XX in the product number is equal to the color of the taplock you want to order. Use the following color abbreviations when placing your order.

Purple = PU, Green = GR, Orange = OR, Red = RE, Yellow = YE, Blue = BL, White = WH, Black = BK

Budco GatorGuard™ Saves You Down The Road…

This Budco exclusive is the perfect solution for fiber optic or cable coax installation and protection. The GatorGuard™ prevents the three bolt clamp from damaging — or even touching — your cable! These spacers move to mid-span over time. The GatorGuard™ also allows the cable to expand into the loop, rather than into the three bolt clamp. The GatorGuard™ can be attached with standard lashed cable supports or Tyton cable ties on page 30. Use the Morrow Cable Blocks for economical and dependable installations!

Rhino TriView Post – UV Stable A

Unique, three-sided marker post designed to provide a 360° visible warning message. The TriView's design allows it to bend and rebound when struck from any direction at speeds up to 55 MPH. The TriView remains flexible in temperatures from -40° to 150°F and can be installed using a soil anchor by direct bury method or by sliding over a metal or u-channel post. The 77-EZA-600 EX Auger ($72) is an optional tool to install post only. See page 36. Priced each. Price includes one (1) decal.* Patent No. 6,099,203

PROD#	DESCRIPTION	1	25	50	100	250
77-TVF60-OB-D	TriView™ Post w/Decal	$15.65	$15.18	$14.71	$14.24	$13.77
77-TVFA	TriView™ Anchor	$9.75 See page 36

Rhino PolyTech™ 360 Pedestal Marker C

Fiberglass core with poly outer coating. Five feet tall by 1/2˝ in diameter. UV stabie. Bracket & rod sold separately. Priced each. Polytech Coating™ Patent # 6,158,919.

PROD#	DESCRIPTION	1	25	50	100
77-PTPR-60-04RW	(5 ft. pole w/Reflective Band)	$9.85	$9.55	$9.26	$8.96
77-PMB-1	Pedestal Bracket Only*	$5.75			
*Bracket does not come with mounting screws.					

Rhino Polytech™ Vault Marker D

Tall overgrown grass and snow can be a problem when trying to locate a handhole or vault. Using a temporary Rhino Vault Bracket and a PolyTech™ 360 rod, handholes and vaults can be easily identified when installation is completed before the snow season, then removed in the Spring. The bracket is composed of powder coated black steel and comes with a hexbit screw. Bracket & rod sold separately. Priced each.

PROD#	DESCRIPTION	1	25	50	100

*Damage Information Reporting Tool

Budco is your Buried Asset Protection Source.

Rhino 700 Series SoilMarker™ A

The 700 Series SoilMarker protects buried facilities under lawns and landscaped areas. The brightly colored, UV stable markers will not interfer with property owners or maintenance activites and can be driven over or parked on without destroying the marker. **The 7˝ marker is held in place with a 13˝ barbed stake that is sold separately (#77-ST-02, shown below)**.

PROD#	1	25	50	100	250
77-SMFO-100TV (Fiber) (shown)	$3.95	$3.83	$3.71	$3.59	$3.48
77-SMTC-100TV (CATV)	$3.95	$3.83	$3.71	$3.59	$3.48
77-ST-02 2-BARB STAKE	$3.95	$3.83	$3.71	$3.59	$3.48

Rhino 400 Series SoilMarker™ B

The 400 Series SoilMarker is a lower profile way to mark buried facilities in areas where homeowners will not tolerate upright marker posts or unsightly signs. Rhino SoilMarkers will not crack or break and can be used for temporary or permanent marking. The one piece design has a 4˝ surface and an 8˝ stake, available with or without barbs.

PROD#	DESCRIPTION	1	25	50	100	250
77-SM4FO-811	400 Series Marker	$3.95	$3.83	$3.71	$3.59	$3.48

Rhino HideOut™ C

The HideOut is a 24˝ flush mounted test station. The HideOut design allows for easy access to wires when attached to the sliding terminal board. The HideOut is made of durable RhinoPoly® that can withstand temperatures from -140° to +150°F. The 7˝ round cap is a highly visible, low profile warning sign that is fade resistant, UV stable and impact resistant, eliminating interference with mowers. The HideOut comes punched with the TriGrip™ Anchor, allowing it to lock into the ground in varying soil conditions. Patent No. 0216328.

PROD#	DESCRIPTION	1	25	50	100
77-RHTB-FIBER-EM6300	HideOut	$40.00	$38.80	$37.60	$36.40

Above ground test stations will protect tracer wire from mowers while warning potential excavators to make a One Call. However, they are not always tolerated in urban environments. Providing an in-ground, flush mounted test station such as the Rhino HideOut™ with an easy-to-access terminal board can eliminate this problem.

Rhino TriView® Test Station D

The exclusive TriView Test Station provides cathodic protection and easy access to tracer wires. For larger quantities, call for quote. Priced each. Price includes one (1) decal.

PROD#	DESCRIPTION	1	25	50	100
77-TVT166OB2-D	TriView Test Station w/Decal	$25.00	$24.25	$23.50	$22.75

Rhino TriView Test Station w/Isolation Lever™ E

The TriView Isolation Lever provides easy access for locating technicians, eliminating the removal of bonding and grounding hardware. The Isolation Lever is comprised of tin-plated brass and engineering grade thermoplastic. Simply slide up to isolate the terminals and slide down to bond. No tools are required. For larger quantities, call for quote. Priced each. Price includes one (1) decal.

PROD#	DESCRIPTION	1	25	50	100
77-TVT166OB-EM9125-D	TriView Test Station w/Isolation Lever & Decal	$43.50	$42.20	$40.89	$39.59

Rhino TriView® Soil Anchor A

The TriView Soil Anchor can be used in many soil conditions, eliminating the need to dig a hole when installing the TriView.

PROD#	DESCRIPTION	1
77-TVFA	TriView Soil Anchor	$9.75

Rhino The TriView® Anchor Driver B

The TriView Anchor Driver is used to install the TriView Soil Anchor by fitting the anchor onto the head of the driver and using a sliding action to sink the anchor into the ground.

PROD#	DESCRIPTION	1
77-TVAD	TriView Anchor Driver	$315.00

Rhino EZ Auger C

The EZ Auger is a faster, more efficient way to create holes for the TriView and dome-style posts. The twisting action creates a 6˝ diameter hole for easier burial use as opposed to a traditional post hole digger.

PROD#	DESCRIPTION	1
77-EZA-600	EZ Auger	$72.00

Rhino Flat Post Driver D

The Flat Post Driver is custom fabricated to accommodate varying flat post styles, from Hybrids to standard fiberglass posts.

PROD#	DESCRIPTION	1
77-FPD-44	Flat Post Driver	$120.00

97-DECAL314

77-314FO-811

Rhino Decals E

Rhino decals are constructed of the finest materials used in the industry. They are engineered to deliver superior readability and permanenet adhesion. The inks that are used consist of UV stabalizers, reducing the effects of fading. **These decals can be customized using company logos, emergency numbers, colors, etc. Call for details 800-331-2246.**

Rhino Hit Kit & Hit Kit +2™

The HIT Kit is used to record damage to buried facilities with a distance perspective that tells the whole story. When damages are documented, one of the key objectives it to show how far the damage is from the marks. The HIT Kit comes with a marker post, damage post and ruler. It also comes with two stands and four spikes in a durable carrying bag. The HIT Kit +2 contains everything that is in the HIT Kit plus two additonal marker posts and four extra spikes. The additional posts are important to clarify the location of the locate marks for a clearer depiction of the scene.

Rhino Locating and Damage Investigation Videos

The Excavation Safety University(ESU) training videos are a series of 30 to 35 minute videos that take you through the process of locating, from best practices and safety tips, to the theory behind locating and the the actual skills needed in the field. Every video comes with a Field Guide that covers the main points in the video, plus tips on how you can practice what you learn. The 5 1/2˝ x 8 1/2˝ size makes them perfect to keep in your vehicle or at your desk. Topics include: Basic Locating Theory, Locating Best Practices, Basic Locating Skills, Locating Safely: Avoiding Hazards, and Damage Investigation: Field Investigation Techniques.

The DVD's are **$145.00** each or available in a 5 pack (includes Field Guides) for **$655.00**. Individual Field Guides are **$23.00** each.

Temporary Cable Guard/Temporary Power Cable Guard

The Temporary Cable Guard helps restore services quickly by allowing you to run temporary cables over most any surface. It reduces truck rolls, and eliminates downtime due to cable cuts, storm damage, traffic or roadway activities. This item is a "must have" for storm restoration crews. Available from stock in 5´ sections. Can be produced in other lengths through special order. Perfect for new construction pre-wiring, or new installations too.

Whatever the reason, protect your drops with Budco's Temporary Drop Guard (Prod # 86-TCG5) or for larger cable applications, Budco's Temporary Power Cable Guard. **Patent No. US D626,515 S**

- **Available in easy to use 5' sections.**
- **86-TCG5 accommodates cable/cable bundle up to .75".**
- **86-TPCG5 accommodates cable/cable bundle up to 2.25"**
- **Can be produced in any length through special order.**
- **Easily anchored with concrete screws if needed.**

Special NLLS Starter Kit $625.00

Everything you will need to give yourself the flexibility and capability of an open air pipline.
The NLLS Kit includes a Rodder Guide Tool, Rodder Adapter Kit, Strand Hardware and 100 5' No-Lash Sections.

No Lash Line System is an aerial placement product that revolutionizes the conventional cable installation process. The system can be used to install cable/fiber by connecting & pushing 5' No-Lash sections from one utility pole to another along bare strand or existing plant. After installation, additional cable(s) can be installed by using the Rodder Guide Tool in the open air pipe line created by the No Lash Line System. Multiple cables can be easily inserted and grouped in the system.

To get a NLLS Starter Kit, or for more info and pricing, please call 1-800-331-2246 or by email at mail@budcocable.com.

We'll also be happy to send video links and literature.

67-MSE-GRY Residential Enclosure Box

All Cabletek enclosure boxes are made of UV stabilized exterior grade poly material. Each of the styles can be sealed with Budco's Plastic Padlock Seals (39-622) or the Split Lock Seal (39-600). The MSE, MDE and CTE boxes all feature the Uni-Lock which accepts locking terminators, hex nuts or f-fittings for added security. All enclosure boxes are shipped with a hardware kit which includes mounting screws, regular and tamper proof screws.

MSE Residential Enclosure Boxes

Precision Rated Optics (PRO) Products

Emergency Response PRO Go-Kit

Everything you need - in a backpack! Each kit is customized to meet your specific needs. Hurricanes, tornadoes, earthquakes or any other disaster can instantly disable fiber communication. Everything a technician needs to inspect, diagnose, repair and test fiber optic networks is contained in the ERK water-resistant Go-Kit backpack, including a hard-shell enclosure for up to a 17˝ laptop. The Emergency Response Go-Kit is just one of the many Go-Kit industry-specific configurations. Choose from: Data Center, FTTx, OSP, Contractor, ERK & DAS.

What's included:

1) A backpack that's water resistant, light weight and practically bullet-proof that can safely store and transport all your test equipment, hand tools and cleaning supplies.
2) An ultra reliable Fusion Splicer, along with an OBL, OFL or OTDR to best suit every application and budget.
3) Test equipment in your backpack includes ruggedized Power Meter, Light Source, Fiber Identifier, Visual Fault Locator and Video Inspection Probe for fast, reliable fiber restoration
4) Cleaning supplies and hand tools needed on any fiber job. We've chosen the most commonly used items.

Call for pricing and to build your custom Go-Kit today!

PRO-790 Fusion Splicer (A)

- Ruggedized, for challenging working conditions
- Color, 3.5˝ display for ease of use.
- IPAS technology, for quick, accurate splices
- 8-second splice time for fast splicing
- Li-Ion battery to splice all day, without an external power source

PRICE $5500.00

Break Locator (B)

- 130km break detector for fiber
- ALL technicians should have one on their truck
- This unit replaces OTDR's where only the break needs to be discovered

PRICE $1595.00

Optical Power Meter (C)

- High Power for CATV systems
- 6 wavelengths

PRICE $378.25

CWDM Channel Analyzer (D)

- 10 Channel Wavelength Testing 1431 ~ 1611nm
- Can also Function as a Power Meter

PRICE 2025.00$

Visual Fault Locator (E)

- Visual Fault Locator – 650nm Red light source
- 5 km reach

PRICE $135.00

Single Mode Handheld OTDR (F)

- Dual Wavelength OTDR 1310/1550nm w/ VIP Port
- Short Range 32/30dB
- Samsung Galaxy II 7.0˝ tablet with software for remote control of OTDR
- FREE FiberBase Desk Top Software (1st year license at no cost)

PRICE $3795.00

82-COYLCC-F001 - Example of Coyote LLC

82-COYLCC-F001 Coyote Low Count Closure (LLC)

PRICE $42.96

17″ x 7″ x 2.5″, max splice capacity Fusion - 24, Ribbon - 72, aerial or direct buried application, allows for multiple splice applications within one closure. Includes (1) 7-hole grommet, (1) 12-hole grommet, (1) splice platform for single fusion, (3) splice blocks, (2) L brackets, clips and fasteners.

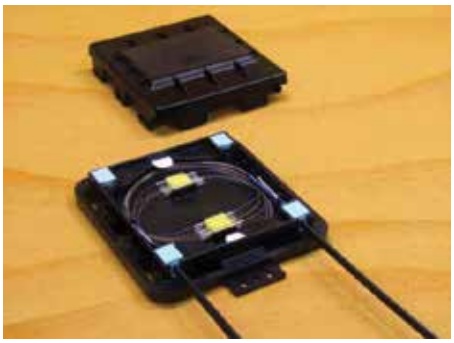

82- 8006951 - Example of Coyote In-Line Runt

82-8006951 or 82-8006952 Coyote In-Line Runts

PRICE $127.87

17.5″ x 10″ x 3.5″, high-drop capacity, 4 entry ports for up to 1 1/4″ cable diameter, hermetically sealed (free breathing and flame-retardant available), opens/closes with can wrench, hinged cover, integrated air valve for seal test, mounting hardware available. 4 (8003701) 2-hole grommets included. #8006951 is hermetically sealed, #8006952 is free breathing.

82-COYDTC-001 Drop Termination Closure

82-COYDTC-001 Coyote Drop Termination Closure

PRICE $34.71

Versatile, compact and quick to install are the words most commonly used to describe the new COYOTE DTC (Drop Termination Closure). This new closure design is constructed to support butt or in-line low count splice applications in a direct buried or below grade environment and pole/wall mounted applications near the end of a network.

- Compact size: 9.1″ x 7.6″ x 1.7″
- No tools required for assembly
- Accepts cables up to .300″ diameter
- Design for direct buring, below grade, pole/wall mount or aerial applications
- Re-enterable and re-usable
- Max splice capacity - 16 single fusion

Coyote GLC (Ground Level Closure)

Call For Quote

- Used for splicing and storing cable during initial construction
- Allows for fiber splicing at a fixed or remote location such as a splice trailer
- Dome Assembly provides a hermetical seal to keep out water, insects, rodents, and other harmful elements
- Full GLC Assembly includes: (1) GLC Dome, (1) Collar, (1) fiber organizer, (1) platform, and (1) base
- All GLC components are modular and can easily be replaced
- GLC base allows for storage of 50 ft (1524 cm) cable legs
- Available Grounding Spacer permits ground isolation / investigation without entering the dome closure

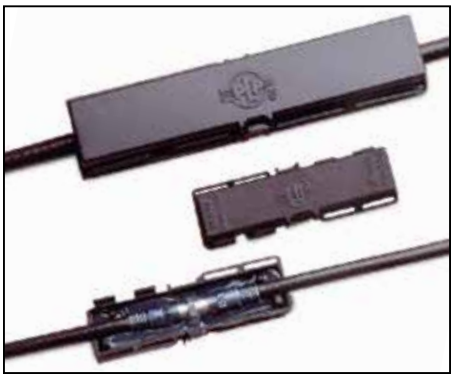

Coyote Ground Level Closure

32-count fiber cross connect.

We can design an enclosure for ANY application. Just give us a call and we will start working on it.

Budco

The best source in the business!

At Budco we are proud to be a part of the telecommunications industry. We've seen it change for more than 40 years, both good and bad, but the industry has continued to grow and Budco has grown with it. We owe our success to you, our valued customers, and we look forward to serving you for many years to come.

Thank you.
