**Aervoe Industries Incorporated corporate
offices and manufacturing facility in
Gardnerville, Nevada**

Company Profile — Aervoe Industries is a leading manufacturer of safety, traffic control and outdoor products for industry. Production capacity, quality control, product development, and management experience combined with our operating philosophy helps keep our customers ahead of the competition.

One company with the power of multiple brands. Aervoe Industries is a leader in providing professional products to the MRO distribution chain.

Mission Statement — “Our customers shall expect and receive products that have consistent quality, reliable performance, and be cost-effective. Materials and package forms shall be selected to provide the proper “tool” for the trade professional or outdoor enthusiast to do the job right the first time.”

- As a manufacturer we are committed to the highest ethical standards in customer relations
- A documented price policy that ensures mutual profitability and a long-term partnership with our distributors and based on integrity
- Field sales support based on knowledge and training provided by salaried and dedicated sales representatives
- Operations conducted with maximum responsiveness, efficiency, and focused on the customers' needs.
- Product development and improvement that define Aervoe as an innovator
- Providing leadership in product safety and regulatory compliance while maintaining exceptional environmental standards
- Operating a purchasing program that assures the most reliable supply standards
- Maintaining exceptional facility housekeeping, safety, and environmental standards
- Conducting employee communications based on pride and respect

These efforts shall yield a knowledgeable and responsive sales force, consistent deliveries of profitable products that meet the toughest environmental standards, and the strength to grow and diversify, maintaining an edge for our customers within our market base.

Customer Service — Aervoe's experienced, friendly Customer Service Representatives are assigned specific account responsibility to assure consistent, personalized service. Expedient response to orders allows us to consistently maintain one of the best shipping response times in the industry. Close teamwork among Customer Service, Accounting, and other administrative personnel enable the company to maintain the efficiency and responsiveness vital to our customer-oriented business.

Product Management — Product specialists are available to answer performance questions from basic application to complicated formulative issues. These individuals can assist in competitive evaluation problems based on direct experience with product testing protocol. In special situations, product and/or technical management personnel are available for field site visits to assist in problem solving.

Quality Assurance — Aervoe Industries manufactures and packages its own products. Manufacturing and assembly takes place in the above-pictured facility and/or is conducted with the oversight and engineering development of our company employees in Shenzhen City, China. Aervoe has competent staff in both locations to design, build, and produce all products sold under the Aervoe brands. We take a direct, one-on-one approach to quality control with a staff of highly trained and qualified full time employees.

Made in the USA — In 2012 we began manufacturing several items in this catalog that were previously manufactured by our partner factories in China. We are proud to make this investment in the future, which we feel will bring growth to our local community and beyond. Please look for the Made in USA icon next to these products.

LED Road Flares

Rechargeable, heavy-duty LED flares replace standard incendiary flares with smokeless, flameless, non-toxic, and waterproof alternatives. Four unique designs are available to identify road hazards, signal for help, mark detours, or repair applications; and for police, fire, military, construction, aviation marshaling and taxiing. LED lights are visible up to two miles. All include a hefty magnet to attach them to any ferrous metal surface, and are sold individually or in a multi-pack kit. NFPA, DOT (FMCSA) and MUTCD compliant.

Universal Road Flares (US patents D707,146; 9,046,229)

A rechargeable version of our Classic Road Flare, and is available in 2 different recharging configurations. The single row of LEDs are visible up to 2-miles.

18 LEDs and 7 flash patterns:

- Rotate
- Quad flash
- Alternating blink
- Quick flash
- S.O.S. (Morse Code)
- Steady on
- 3-LED marker light

Option for a 4-pack stacking charger or a 6-pack charging case. #1160 and #1161 include a 120V wall charger and a 12V power cable to hard wire to the vehicle battery. #1162 and #1163 include a 12V vehicle charger and 120V wall charger.

Description	Case Qty.	Case Wt.
1160 Universal Road Flare Amber (4-pack stacking charger)	2	12 lbs.
1161 Universal Road Flare Red (4-pack stacking charger)	2	12 lbs.
1162 Universal Road Flare Amber (6-pack charging case)	2	16 lbs.
1163 Universal Road Flare Red (6-pack charging case)	2	16 lbs.

Super Road Flares (US patents D654,387S; 8,550,653B2)

This advanced version of the Universal Road Flare is larger with 24 LEDs and 2 rows of lights to increase visibility up to 2 miles.

Features 7 flash patterns:

- Reverse rotate
- Quad flash
- Alternating blink
- S.O.S. (Morse Code)
- Steady on - high
- Quick flash
- 4-LED marker light

Available in a single-unit clamshell or a 4-pack recharging case.

Super Road Flare single packs include a storage bag, 120V wall charger and 12V vehicle charger.

Super Road Flare Kits include 4 Road Flares in a recharging storage case, 120V wall charger and 12V car charger, and two #1159 Flex-Fit Tripods.

SINGLE PACKS

Description	Case Qty.	Case Wt.
1164 Super Road Flare - Amber LEDs	4	8 lbs.
1165 Super Road Flare - Red LEDs	4	8 lbs.

FOUR-PACK RECHARGING CASE

Description	Case Qty.	Case Wt.
1167 Super Road Flare Kit - Amber LEDs	2	10 lbs.
1168 Super Road Flare Kit - Red LEDs	2	10 lbs.

Classic Road Flares (US patents D707,146; 9,046,229)

A battery operated version of our road flare. Full of features and an economical choice for replacing incendiary flares. The single row of LEDs are visible up to 2 miles. Requires 2 AA batteries (included).

18 LEDs and 7 flash patterns:

- Rotate
- Quad flash
- Alternating blink
- Quick flash
- S.O.S. (Morse Code)
- Steady on
- 3-LED marker light

Classic Flare Single Packs include 2 AA batteries and hex wrench for battery replacement.

Classic Flare Kits include 8 AA batteries, 2 hex wrenches for battery replacement, and a nylon storage bag.

Description	Case Qty.	Case Wt.
1145 Classic Road Flare - Amber LEDs	4	5 lbs.
1146 Classic Road Flare - Red LEDs	4	5 lbs.
1147 Classic Road Flare Kit (4-pk) - Amber LEDs	2	6 lbs.
1148 Classic Road Flare Kit (4-pk) - Red LEDs	2	6 lbs.

1154
1155

Baton Traffic Flares (US patent D650,932S; 8,579,460)

This multi-functional flare can be a road flare or safety wand. Constructed of the same durable materials it can be thrown on the ground as a road flare or held in the hand to direct traffic, whether it be vehicles, aircraft, or people. Available in a single unit clamshell or a 3-pack recharging case.

Features one ½-Watt white LED flashlight, plus 14 signal LEDs visible up to ½-mile.

5 Flash patterns:

- Rotate
- Quad flash
- Alternating blinks
- S.O.S. (Morse Code)
- Steady on - high
- Flashlight - operates independent of flash patterns

Baton Traffic Flare single packs include a storage bag, 120V wall charger, and 12V vehicle charger.

Baton Traffic Flare Kits include 3 Baton Traffic Flares in a recharging storage case, 120V wall charger, 12V car charger, and two #1159 Flex-Fit Tripods.

SINGLE PACKS

Description	Case Qty.	Case Wt.
1154 Baton Traffic Flare - Amber LEDs	4	5 lbs.
1155 Baton Traffic Flare - Red LEDs	4	5 lbs.
1156 Baton Traffic Flare - Red & Blue LEDs	4	5 lbs.

THREE-PACK RECHARGING CASE

Description	Case Qty.	Case Wt.
1157 Baton Traffic Flare Kit - Amber LEDs	2	12 lbs.
1158 Baton Traffic Flare Kit - Red LEDs	2	12 lbs.
1156x Baton Traffic Flare Kit - Red & Blue LEDs	4	12 lbs.

Flex-Fit Tripod

Sturdy metal tripod holds any Aervoe LED Road Flare off the ground for greater visibility. Using the magnet embedded in the flare, the tripod will hold them securely on uneven ground and in moderately severe weather.

Switchable metal cap:

1. Cup side holds the Baton Flare upright
2. Flat side holds the "puck" style flares

Flexible legs adjust to uneven terrain or can be used as a post to insert into the top of safety cones for additional lighting.

Traffic Control

Collapsible Safety Cones

Collapsible safety cones are compact and store easily in a car trunk, utility truck or toolbox and are easy to use to direct traffic away from an accident or breakdown. Also useful in warehouses and construction sites.

- Two sizes 18" and 28"
- Collapsible to 2"
- Durable nylon construction
- 2 Highly reflective stripes and Red LED flashing light (2-AAA batteries included)
- Includes a storage bag
- 28" cone has a weighted base
- 28" cone meets FHWA, MUTCD and NFPA 1901, Section 6.7.3 specifications.
- 28" cone is also available in a 3- or 5-pack kit.

Description	Case Qty.	Case Wt.
1190 18" Collapsible Safety Cone	6	13 lbs.
1191 28" Collapsible Safety Cone	6	31 lbs.
1192 3-Pack Kit	1	17 lbs.
1193 5-Pack Kit	1	27 lbs.

Replacement LED Lights

Red or Yellow replacement LED lights for the Collapsible Safety Cones. Batteries included.

Description	Case Qty.	Case Wt.
1195 Red LED Safety Cone Light	12	2 lbs.
1196 Yellow LED Safety Cone Light	12	2 lbs.

Flare Holder for Cones

Inserts into any standard rubber traffic cone to hold our LED flares using the magnet on the flare.

Description	Case Qty.	Case Wt.
1194 Flare Holder	6	2

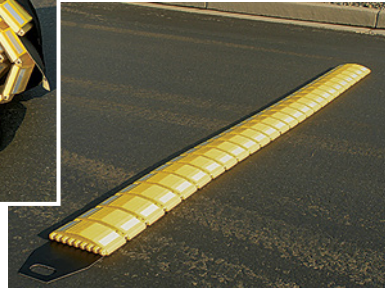

Solar Strobe/Signal Lights

Full size weatherproof solar strobe lights mount to most rubber traffic cones or any horizontal or vertical surface, such as barricades, signs, poles, and vehicles, using the included mounting bracket. Flashing light is visible up to 1640 feet, and available in red or yellow. Charge in the sun all day for hours of use. Used by construction, traffic safety, and municipalities. Meets NFPA, DOT, and MUTCD specifications. Batteries included.

Description	Case Qty.	Case Wt.
1197 Red	4	7 lbs.
1198 Yellow	4	7 lbs.

1170

Portable Speed Bumps

Place a speed bump anywhere needed - road, parking lot, construction site, or school zone. Rolls up into a heavy-duty nylon bag to carry and store. Includes connecting pin to link two lengths together. Choose from a standard speed bump with reflectors, or one with rechargeable LED flashing lights. Additional LED sections are sold separately to add to either model.

- 10' long and 8⁵/₈" wide. Stands 1½" tall.
- Rolled diameter 21"
- Connect two together for a 20' length
- Impact-resistant yellow polypropylene plastic
- Rubber non-skid bottom with high-intensity reflectors on top
- Won't fade or crack in hot or cold temperatures

Description	Case Qty.	Case Wt.
1170 Portable Speed Bump Reflective strips on the front and back of each link.	1	48 lbs.
1171 Portable Speed Bump with LED lights 3 Links include yellow LEDs on the front and back in addition to reflective strips.	1	48 lbs.
1172 Replacement LED Section May be added to either #1170 or #1171 for additional light.	1	5 lbs.

1149

Traffic Control Kit

This kit includes our Classic Road Flares and Baton Traffic Flares to mark lane closures, road hazards, and evacuation routes. Each kit may be customized with Red or Amber LED flares to meet customer requirements. Ideal kit for Law Enforcement, Fire, EMS, Event Management and Construction.

Contents:

- 24 Classic Road Flares (choose either Red or Amber LEDs)
- 3 Baton Traffic Flares (choose either Red or Amber LEDs)
- 6 Flex Fit Tripods
- 96 Batteries (1 set to install in the Classic Road Flares and 1 replacement set)
- Chargers for the Baton Traffic Flares
- 1 Protective equipment case

Description	Case Qty	Case Wt.
1149 Traffic Control Kit	1	26 lbs.

Safety Vests

1282, 1283
1287, 1288

1242, 1243

LED Safety Vests

Constructed to ANSI Class 2 specifications with the addition of 8 red flashing LEDs on the front and back. Increases visibility in moderate-risk environments.

- 2" Reflective stripes
- Breathable polyester mesh material
- Zipper front closure
- Adjustable hook & loop side straps
- Mic strap on shoulder

Description
1242 Fl. Yellow X-Large
1243 Fl. Yellow XX-Large

Case Qty.	Case Wt.
12	8 lbs.
12	8 lbs.

ANSI Class 2 Surveyor Safety Vests

Our high quality Surveyor vest that is certified to meet ANSI Class 2 requirements.

- 2" 3M Scotchlite® reflective stripes
- Breathable polyester mesh material
- Zipper front closure
- Adjustable hook & loop side straps
- Mic strap on shoulder
- 3 Pockets

Description	Case Qty.	Case Wt.
1282 Fl. Yellow X-Large	12	8 lbs.
1283 Fl. Yellow XX-Large	12	8 lbs.
1287 Fl. Red-Orange X-Large	12	8 lbs.
1288 Fl. Red-Orange XX-Large	12	8 lbs.

Work Lights

8711

8715

8712

LED Work Lights

Rechargeable work lights include an Epistar LED and come in either a 10-Watt or 20-Watt option. They recharge from an included 120V AC or 12V DC charger or from any Sierra Wave® solar collector or power center. Each model comes with a stable base, or they may be optionally mounted on the #8715 Metal Stand (sold separately).

10-Watt LED Work Light

- 10-Watt Epistar LED
- 700 Lumens
- 4400mAh lithium ion battery
- 2 pounds
- IP65, EC, ROHS

20-Watt LED Work Light

- 20-Watt Epistar LED
- 1400 Lumens
- 8800mAh lithium ion battery
- 3.75 pounds
- IP65, EC, ROHS

Work Light Metal Stand

Holds 2 Work Lights (either style) and extends from 34" to 5'. Weighs 6.5 pounds.

Description	Case Qty.	Case Wt.
8711 10-Watt LED Work Light	4	13 lbs.
8712 20-Watt LED Work Light	2	10 lbs.
8715 Work Light Metal Stand	2	17 lbs.

Two-Way Communication

7910

Wind 'N Go 2-Way Radios

2-way dynamo radio with 2 LED flashlight is ideal for backpacking, boating, sporting event management and emergency preparedness. Utilizes the self-powered Wind 'N Go dynamo system so power is always available.

- 22 Channel FRS/GMRS 2-way radio
- 2 LED flashlight
- 38 Privacy codes for each channel (836 channels available)
- Auto scan/monitor
- VOX (Voice Activated Transmission)
- Rechargeable lithium-ion battery
- Low battery alert and protection
- Backlit LCD display
- 10 Call alerts and key lock
- Weather resistant
- Belt clips included
- Includes 120V AC/DC wall charger with dual charging cables

Description
7910 2-Way Radios

Case Qty. 2 Case Wt. 4 lbs.

Solar and Dynamo Flashlights and Radios

7120

7415

7425

SolaDyne Emergency Alert Radio and Flashlight

Stay informed during severe weather emergencies and any other emergency broadcast on the NOAA Weather Band & Alert. Self-powered dynamo hand crank or solar panel charge. Or charge it using a USB power source. Will also operate using 3 AAA batteries (not included).

- AM, FM, and NOAA weather bands with all-hazards alert
- 3 LED flashlight
- Clock
- USB cell phone charger
- Earphone jack
- Multi-charge:
 - Solar
 - Dynamo
 - USB (included)
 - 120V AC & 12V DC (not included)
 - AAA Batteries (not included)

Description	Case Qty.	Case Wt.
7415 Emergency Alert Radio & Flashlight	4	5

Wind 'N Go Mini Flashlight

Fits into compact spaces like a purse, backpack or glove compartment. Packaged in a full-color POP display.

- Dynamo hand crank to charge
- 3 LED flashlight operates on high (3 LEDs), Low (1 LED) or all 3 flashing
- Glow in the dark on/off button
- Wrist strap
- Includes a full color POP display

Description	Case Qty.	Case Wt.
7120 Mini Flashlight	10	5 lbs.

SolaDyne Solar Waterproof Flashlight

The ideal flashlight for boating, scuba, and emergency preparedness because it can be exposed to severe weather. It floats, so if it's dropped in water it can be retrieved.

- Waterproof and submersible to 33 ft. (IPX7 rated)
- 3 LED flashlight operates on high (3 LEDs) low (2 LEDs) and all 3 flashing
- Floats
- Solar and dynamo powered
- Up to 70 minutes on a full solar charge

Description	Case Qty.	Case Wt.
7425 Solar Waterproof Flashlight	6	4 lbs.

Solar and Dynamo Lanterns

7470

SolaDyne Mini Solar Lantern

A lantern that operates without fuel and is extremely safe for indoor use. Ideal for hanging in a tent.

- 6 LED lantern operates on high (6 LEDs) or low (3 LEDs)
- Hang using the included carabiner clip
- Includes female USB adapter to charge cell phones
- Charge via:
 - Solar panel provides up to 5 hours of use
 - Dynamo hand crank, 1 minute of winding provides up to 1 hour of use
 - Included USB power adapter tip connects to USB 12V DC or 120V AC power cord for up to 5 hours of use (power cord not included)

Description
7470 Mini Solar Lantern

Case Qty. 6 Case Wt. 6 lbs.

7820

14-Watt Power Hub

AA battery charger and power distribution center. Either plug into the USB port as a power source, or recharge batteries to install in electronic devices.

- INPUT: 120V, 12V
- OUTPUT: 5V USB port
- Includes 120V AC, 12V DC charger, 4-AA NiMH batteries, universal USB charging cable with 3 adapter tips (Apple 30-pin, Apple Lightning, and micro USB).

Description
9614 14-Watt Power Hub

Case Qty. 2 Case Wt. 3

Wind 'N Go Vers-A-Light™

A compact 19-LED lantern and S.O.S. beacon in a weatherproof housing. Versatile! Use as a lantern, flashlight, or beacon; and hang in a tree, hold in your hand or attach to metal objects with the magnets.

- Five ways to charge: Dynamo and USB (included) or 12V DC, 120V AC or solar panel (not included)
- 16 Super white LEDs operate on high or low
- 3 Red LEDs that glow steady or flash the S.O.S. signal
- Detachable handle with hook
- 3 Magnets to attach to any metal surface
- When fully charged provides up to 10 hours of light
- DC input for charging with either 12V or 120V adapter
- Includes female USB adapter to charge cell phones

Description
7820 Vers-A-Light™

Case Qty. 6 Case Wt. 4 lbs.

Outlander Lantern™

Out of this world light in a rugged, weatherproof lantern. Light Guide Panel technology exponentially increases light output to brighten any campsite, RV, or when the power goes out. Operates on 3 D-cell batteries for hundreds of hours of use (batteries not included).

- 3 Light Guide Panels produce eye-pleasing, but super bright light
- 300 Lumens
- Operates on high, low, and SOS
- Green LED indicator on the front to locate in the dark
- Recessed hook in the base to hang upside-down
- Carrying handle
- Over-molded rubber base
- Water resistant
- Powered by 3 D-cell batteries (not included)

Aervoe is set up for direct electronic exchange of orders, shipping information, and invoicing. To find out more about our EDI capabilities, contact Customer Service at the toll free voice number listed above.

WAREHOUSE

Orders are shipped from our distribution centers in Gardnerville, Nevada, or Nashville, Illinois, depending on the final destination of the order.

FIELD SALES ASSISTANCE

Aervoe employs factory-direct Field Sales Associates to assist in the selling effort.

QUALITY CONTROL

We are committed to continuous improvement of our Quality Management System which reflects our start in this industry 50 years ago as the major G.S.A. aerosol contractor for military specification lacquers and enamels. All imported items are inspected prior to leaving the factory.

E-COMMERCE

Aervoe is online with a fully operational storefront. Visit our web site 24 hours a day, 7 days a week to download important product information, see new product introductions and promotions, or place your orders at www.aervoe.com.

INTERNATIONAL CONSIDERATIONS

It is a corporate goal to increase our presence in Mexico and Latin America, as well as Eastern Canada, and to that end Aervoe is working hard to provide SDS in Canadian English and French. We are also adding French and Spanish labeling to selected products. This effort will continue to expand as our international influence expands.

AERVOE PRODUCT CATEGORIES

See Aervoe's other product catalogs for Industrial, Maintenance and Chemical Products, Portable Appliances and Portable Alternative Energy Products.
