PENCELL® HDPE COVERS

UPDATED HDPE PLASTIC COVERS - DROP-IN & T-TOP OPTIONS

Based on customer feedback, Hubbell® has improved the plastic (HDPE) covers on the popular PenCell® DT series. The t-top cover, shown (far left) will be replaced by an enhanced drop-in cover (far right). Drop-in covers sit flush with the enclosure, come with captive bolts, and are easier to install.

THE NEW DROP-IN STYLE

- Only applies to DT style PenCell® Underground Enclosures
- Is stronger - with increased sidewall thickness
- Is UV stable, and will not degrade in direct sunlight
- Decreases installation time - Less time needed to excavate
- Prevents lost bolts - Captive bolts are standard
- Is safe - ADA compliant cover with a coefficient of friction > .50

The new design will be phased into production beginning on July 1st, 2016. All future orders should be placed with the new drop-in part numbers. The t-top cover will still be available, but will now carry a 10% premium. A full list of new to old part numbers is included on the following pages.

SIZE	OLD T-TOP COVER #	NEW DROP-IN COVER#	MATERIAL DESCRIPTION

Notes:
1) Whenever the part numbering system does not accommodate the item, then a special 500 number is used. These are assigned by Hubbell Enclosures as needed for customer specific requirements.
2) This part numbering system is provided for guidance to help decipher our part numbers. Some styles or sizes are not available with some options.

It is not possible to order a custom part by building your own part number from this table.
