

Multilink®
Innovation At Work

RNI-1500 Special

Product Description

The RNI-1500 enclosure is designed for use in both indoor and outdoor applications. It has the capacity to hold 2 standard Multilink adaptor panels, and 2 of the 612 series splice trays allowing for a maximum number of 24 single fusion splices. The trunk cables enter the enclosure on the bottom left corner, and there are 5 cable entrances on the bottom right side that multiple drop cables can exit out of. The enclosure can be locked with a small padlock, or a locking terminator.
