6x4 FiberRunner® System Spillouts *(continued)*

Part Number	Description	Couplers Required	Color**
Dual Downspout with Throat Covers			
FRDDS6X4L**	Attaches to a 6x4 channel and/or fitting to create two 90° 4x4 downward transitions from a horizontal run. The fitting maintains a 2.0" (50.8mm) bend radius control throughout the transition to the vertical downspouts. It includes two snap-on throat covers for the dual downspouts	–	Yellow (YL), Black (BL)
6x4 Dual Downspout Cover			
FRDDSHC6L**	Used to fully enclose the 6x4 dual downspout fitting FRDDS6X4L**	–	Yellow (YL), Black (BL)
Cover for Spill-Over Junction with 2x2 Exit for 6x4 Channel			
FRSPJC26L**	Assembles onto 4x4, 6x4, 12x4, or 24x4 FiberRunner Channel, spilling over the side into a 2x2 vertical exit. Requires coupler to attach 2x2 FiberRunner and fittings to the vertical exit	(1 pc.) FBC2X2L**	Yellow (YL), Black (BL)
Spill-Over Junction with 4X4 Exit for 6x4 Channel			
FRSPJ4X4L**	The FiberRunner 4x4 Spill-Over Junction is used to fully enclose 4x4, 6x4, 12x4, or 24x4 channels. It mounts directly to the existing installation with no alteration required	–	Yellow (YL), Black (BL)
Cover for Spill-Over Junction with 4x4 Exit for 6x4 Channel			
FRSPJC46L**	Used to fully enclose 6x4 channel in conjunction with the spill-over junction FRSPJ4X4L**	–	Yellow (YL), Black (BL)

**Insert colors Yellow (YL) or Black (BL)

6x4 Cable Retainer

FRCR6LBL-X	Holds cable in the channel when cover is not used	–	Black
